### CONVENIENT VENUE!

International Union of Operating Engineers Banquet Hall and Conference Centre, Oakville, Ontario.

## READING FOR ALL:

### An in-depth look at research and the brain- and how this relates to good reading instruction.

We are pleased to present two revered experts to speak about this fascinating subject.

**Guinevere Eden** is the Director of the Center for the Study of Learning (CSL) at Georgetown University, Washington, DC. One of her goals is furthering the scientific understanding of the neurobiological mechanisms of learning disabilities, with particular emphasis on dyslexia.

**Maureen Lovett** is Senior Scientist, Neurosciences & Men-

tal Health, Director, Learning Disabilities Research Program and Professor of Paediatrics, University of Toronto. Her research is focused on treatment and intervention for struggling learners - particularly in the area of literacy learning - and her team has had very good results in pursuing research-based interventions with some very impaired struggling readers.

**Idah • Learning Disabilities Association of Halton**

*The right to learn, the power to achieve*
